EXAMINER'S COMMENTS

Response to Arguments

1. Applicant's arguments filed 3/22/2005 have been fully considered and are persuasive.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a blister pack or method of forming a blister pack in which a base sheet with blister pockets and a cover sheet, each comprising at least one layer of metal foil, are joined and hermetically sealed by the application of laser energy.

The most pertinent prior art, FISHMAN, discloses joining layers of a blister pack, but does not disclose the layers as being made of metal foil, but rather of plastic. LOCKINGTON discloses sealing a bag with layers of metal foil, but not using laser energy to fuse them.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3721
